

Hi,

I believe that HB6645 (the bill on Assisted Suicide) is immoral and should be eliminated from consideration. There ARE people out there, old and young, who are going through mental and physical pain. However, to go and pass a bill that allows others and themselves to think that suicide, assisted or not, is ok, is absolutely ridiculous. There are VERY capable doctors, therapists, psychiatrists, psychologists, etc., to help people through their physical and mental issues and be able to make them healthier in ALL aspects (that's what they went to school for, right?). Let these medical professionals do their jobs and heal others by keeping them ALIVE! Get rid of HB6645, because it will cause more harm that we can all do without! To quote a saying I have heard in the past, "Suicide: A Permanent Solution to a Temporary Problem". NO TO ASSISTED SUICIDE, AND NO TO HB6645!

Sincerely,

Jason M. Palica
